As a full stack web developer, my background in Justice Studies enriches my approach to understanding end-user interactions with software. I've successfully completed a certificate in Full Stack Web Development from Arizona State University Boot Camp, further enhancing my skill set. I am deeply passionate about crafting solutions that assist and empower users, with a keen focus on mobile-first design and development. My strengths lie in collaborative teamwork, extensive research, and the ability to bring projects to life from conceptualization to implementation.

## TECHNICAL SKILLS

HTML 5, CSS3, GitHub, Git, JavaScript, jQuery, Bootstrap, Node.js, Agile Methodologies, Web Services API, Restful API, Server Side JavaScript, Express.js, Node.js, OOP, MVC, MySQL, NoSQL, Sequelize, Vite, PWA, Reactjs, GraphQL, MERN, Apollo Server

## PROJECTS

**Budget Buddy** | <https://github.com/dylanhoryza/budget-tracker-team-5> | [Budget Buddy](#)

- Summary: Group project that was created to make users lives easier by having a friendly and easy to use budgeting application that can save, update, and delete data from their profile.
- Role: Create and style the frontend and backend routes for logging in, signing up, and logging out. Incorporate new technology with a display (chart.js). Implement Darkmode.js.
- Tools: Handlebars, CSS, Bootstrap, JavaScript, Sequelize, Node.js, Charts.js, MySQL, Insomnia, npm packages, Darkmode.js, and JQuery

**Password Generator** | <https://github.com/HenegarCodes/passwordGenerator> | [Password Generator](#)

- Summary: Created to allow users to create unique passwords without worry about their personally created passwords being weak. Users go through multiple prompts to ensure all needs are met for the secure password.
- Role: Sole author
- Tools: HTML, CSS, Javascript

**Jungle Map API** | <https://github.com/HenegarCodes/jungle-map-api> | [JungleMapAPI](#)

- Summary: Group project made to display NBA statistics for selected years by user input using a modalThat will also display a giphy upon every click on a new team
- Role: Create and maintain the API calls and javascript code related to the project, updated GitHub issues, test, and review pull requests
- Tools: HTML, CSS, Javascript, and APIs

## EXPERIENCE

### **Delivery Coordinator**

**2022-Present**

#### **Lowe's Home Improvement**

**Gilbert, AZ**

Final reviewer of every delivery to ensure our drivers have the necessary information to make a safe delivery and that the needs of our customer have been met.

#### **Key Accomplishments:**

- Coordinate and support deliveries from beginning to end, serving as the SME and maintaining a rate of 3% or less with issues on daily, weekly, and monthly deliveries
- Quality check all product pulled and set for delivery for seamless installation
- Follow up with customers daily on any issues regarding deliveries until resolved
- Serve as the district trainer for all delivery departments

### **Wells Fargo**

**2020-2022**

#### **Home Preservation Representative 2**

**Chandler, AZ**

Communicates with borrowers and/or agencies of loan modification decision, current status, workout options, timelines, coordination touch points, and borrower obligations through the process.

#### **Key Accomplishments:**

- Single Point of Contact to borrowers and/or agencies whose loans are delinquent or at high risk of delinquency
- Develop comprehensive knowledge of the loss mitigation processes and procedures to recommend solutions to maintain home ownership, including modifications, repayment plans, or other short term retention options .
- Communicate and coordinate repayment programs with multiple servicing departments both internal and external to Wells Fargo
- From intake to final decision on customer programs take no more than 5 days to completion ensuring borrowers communicate information in a timely manner
